

*Sub b14  
Cond*

attached thereto, and

    said terminal apparatus comprising:

        an image input unit for inputting an original  
        image;

        a transmission circuit for sending the inputted  
        original image to the server for registering the inputted  
        original image as the first information in the first database;

        an input unit for inputting the code via the  
        network; and

        a printer for receiving the information  
        outputted by said output unit via the network, and printing the  
        received information. *A*

REMARKS

Claims 1-58 and 60-88 are pending in the present application. Claims 1-58 and 60-87 have been amended to put them in better form for examination. Claim 59 has been cancelled, without prejudice or disclaimer of the subject matter presented therein. New Claim 88 has been added. Claims 1, 26, 29, 60, 85, and 88 are in independent form.

A Request for Approval of Drawing Changes has been submitted herewith, in which certain typographical errors in the drawings are corrected.

Favorable consideration and early passage to issue of

this application is respectfully requested.

Applicants' undersigned attorney may be reached in our New York Office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address listed below.

Respectfully submitted,
